- AAAS, *An Inexpensive Science Library*, 696; Chicago 1959 meeting, 226, 923, 1196, 1258, 1344, 1428, 1480, 1533, 1547; elementary school library, 695; financial report for 1958, 632; history of Chicago meetings, 923; hotel headquarters and housing for Chicago meeting, 226; International Oceanographic Congress, 257, 375, 696, 761, 895; Laramie meeting of Southwestern and Rocky Mountain Division, 278; library program, 695; nominations of officers, 801; prizes and awards, 377, 443, 1178, 1644; *Science*, printing of, 829; *Science Book List*, 695; *Science Education News*, 150; science teaching improvement program, 150, 1237; Southwestern and Rocky Mountain Division (meeting report), 278; study of certification requirements for teachers of secondary-school science and mathematics, 1237; Theobald Smith award, competition for, 377; Westinghouse science writing awards, 443, 1178, 1644
- ABELSON, P. H. (Ed.), *Researches in geochemistry*, book review of, 562.
- Abri Pataud (France), materials used in prehistoric painting in, 708.
- Absorption, iron from iron chelate, by sunflower roots, 274; self-, of C^{14} radioactivity, correction technique for, 772; erratum, 1701
- Absorption spectra, of chloroplasts and retinal pigments, 1084; infrared, of irradiated coals, 1762; ultraviolet, correspondence of data for 5-ribosyluracil from urine and yeast ribonucleic acid, 862
- Academic degrees, college environment and production of, 71; European, nomenclature for, 4
- Acanthamoeba*, phagocytosis of erythrocytes in cell culture by, 1763
- Acatlasemia, genetic pattern of, in man, 333
- Acetylcholine, comparison of effects of γ -carbomethoxypropyltrimethyl ammonium bromide with, 504
- Acids, organic, in marine invertebrates, 1409; titration curves for, 513
- Acrylamide gel, as stabilizing medium for zone electrophoresis, 711
- Adaptation, light and dark, vitamin A content of frog eye during, 977
- Adenine, feedback inhibition by, 622
- Adenine nucleotide, incorporation into ribonucleic acid (abstract), 1414
- Adler, M., and A. B. Gutman: Uridine isomer (5-ribosyluracil) in human urine, 862
- Adrouny, G. A., et al.: Isolation of a hemolytic component of fire ant venom, 449
- Aeration, in plant tissue culture, 863
- Affection, of infant monkey for surrogate mother, 421
- Africa, control of lucust in (news), 1564; fossil hominids in, 833; book reviews: Africa, 1402; Exploration hydrobiologie des lacs Kivu, Edouard et Albert (1952-54), 447; Nationalism in colonial Africa, 94
- Age, and moon illusion (letter), 1364; relation to concentration of potassium in man, 713; and size perception, in man, 569
- Agnatha, body-fluid partitioning in, 99
- Agriculture, basic research at state experiment stations, 1639; digestibility of ClO_2 -treated forages, 1252; and domestication of animals, 1632; domestication of food plants, 365
- Ahmadjian, V., and E. Henriksson: Parasitic relationship between two culturally isolated and unrelated lichen components, 1251
- Air pollution, from 1958 nuclear tests, 161; ozone, relationship to weather parameters, 103; protection by sulfur compounds against toxicity of O_3 and NO_2 , 861; book review: Air pollution control, 858
- Aitken, T. H. G. See W. G. Downs, 1471
- Akerfeldt test, effect of anxiety on, 565
- Alaska, book reviews: Eskimo prehistory in the vicinity of Point Barrow, Alaska, vol. 47, pt. 1, 1246; North Alaskan Eskimo, 788
- Albinism, in hagfish, 798
- Alchian, A. A., and R. A. Kessel: Redistribution of wealth through inflation, 535
- Algae, dispersal by water birds, 623; lichen, parasitic effect of a culturally isolated and unrelated lichen fungus upon, 1257; marine plankton, production rates of, 602; *Protosiphon*, effect of substitution of strontium for calcium on motile cells of, 718
- Allen, K. See J. Awapara, 1250
- Allergen standardization (meeting report), 459
- Allergy, delayed hypersensitivity in mouse, 159
- Allison, S. K.: Nuclear and atomic properties of high-energy lithium beams (abstract), 1411

- Ameba, cytotoxic, phagocytosis of erythrocytes in cell culture by, 1763
- American Institute of Biological Sciences, study of biology curriculum, 1328
- American Men of Science*, growth of, 193
- Amines, monoamine oxidase inhibitors and excretion of, 225
- Amino acid, biosynthesis in cell cultures, 432; effect of growth hormone on transport into muscle cells, 1653; isolation of β -aminoisobutyric acid from *Mytilus edulis*, 1250; structural similarities between hemoglobins A and F, 1574
- Aminoimidazole ribotides, effect of purines on formation of, 622
- β -Aminoisobutyric acid, isolation from *Mytilus edulis*, 1250
- Ammonium, fixed, in rock, 221
- Amniotic fluid, withdrawal, and development of cleft palate in mice, 981
- Amphibia, experimental embryonic induction in, 686; anophthalmia in larvae of Mexican axolotl, 1419; See also Frog; Salamander
- Amphiuma means*, consumption of shed skin during enforced starvation, 1758
- AMRINE, M.: The great decision, book review of, 12
- Anatomy, book reviews: Anatomy of the human body (GREGG), 1757; Anatomy of the human body (LOCKHART et al.), 705; Introduction to human anatomy, 563; A method of anatomy, 95; Radiographic atlas of skeletal development of the hand and wrist, 215
- Anderson, E. C., and W. H. Langham: Average potassium concentration of the human body as a function of age, 713
- Anderson, G. D. See R. W. Bullard, 1413
- ANDERSON, J. K. See GINZBERG, E.
- Anderson, M. G.: Southwestern and Rocky Mountain Division (meeting report), 278

- Andrew, W.: Structure and behavior of blood cells of three species of tunicates (abstract), 1411
- ANFINSEN, C. B.: Molecular basis of evolution, book review of, 1108
- Angiosperms, poleward migration of, during early Cretaceous time, 203
- Animal, domestication in prehistoric Near East, 1632; electromagnetic meters for determining blow flow in free moving, 1088; noxious, application of sterile-male technique of population control of, 903; book reviews: Complete field guide to American wildlife, 1334; Curious naturalists, 334; on the track of unknown animals, 1245; The world of living things, 1334
- Anaphylaxis, delayed reactions to ovalbumin, in mouse, 159
- Ant, fire (*Solenopsis saevissima*), isolation of hemolytic component from venom of, 449
- Antarctica, international agreement for scientific exploration of, 1641; international negotiations on scientific studies in, 1097; mummified seal carcasses from, 716; organization of scientific studies in, 1748
- Anthropology, coexistence of industrialization and peasant society in Guatemala, 1456; contributions of R. Redfield to, 609; fossil record of hominids, 831; Peking man (letter), 416; psychosocial synthesis (letter), 1728; the Villafranchian and human origins, 831; book reviews: Ancient population of Siberia and its cultures, 1467; Anthropological reconnaissance in West Pakistan (1955), 91; Aztec: man and tribe, 157; Customs and religion of the Ch'iang, 1336; Eskimo prehistory in the vicinity of Point Barrow, Alaska, vol. 47, pt. 1, 1246; Excavations at La Venta Tabasco, 1955, 329; Indians of the High Plains 1185; Mankind in the making, 1399; Medicine and anthropology, 789; Mutillaciones dentarias prehispanicas de México y America en general, 619; Navaho art and culture, 1469; North Alaskan Eskimo, 788; Primitive peoples today, 703; Southeastern Indians, life portraits, 93
- Antibiotic, circulin, chemistry, site of action, and biosynthesis of (abstract), 1419; penicillin, hemagglutination technique for detection of antibodies to, 1472; in royal jelly, 452
- Antibody, adsorption in vitro, 41; detection of penicillin, 1472; properdin (letter), 826
- Antibody formation, abstracts of papers presented at symposium on, held at the autumn meeting of the National Academy of Sciences, 1427
- Antigen, assay of antigenicity of homologous whole spleen cells of mice, 1707; role in antibody production (abstract), 1427; transplantation, genetic determination of, 948
- Antigen-antibody, Diego, transmission of, 164
- ANTU. See α -Naphthylthiourea
- Anxiety, effect of, on Akerfeldt test, 565
- Ape, fossil, and human origins, 831
- Apparatus, carboy system, for plant tissues, 863; catheter, 709; for determining x-ray emission from television sets, 1071; electromagnetic blood flow meters, 1088; frequency-modulated ultrasonic interferometer (abstract), 1418; heart-beat counter for use during usual activity, 976; for high-speed photography, 1053; for investigating communication between monkeys, 712; magnetic activity pickup for mice, 455; nuclear reactor for medical research, 1067; respiratory carbon dioxide response curve computer, 1079; simplified microspectrophotometer, 1084; sodium and potassium-sensitive glass electrodes for biological use, 1252; for studying high-speed events, 1051; for studying olfactory discrimination in birds, 630; for sublimation freeze-drying without vacuum, 628; for surveying and mapping, 1059; use of molecular pumping to produce high vacuum, 1406.
